

# **The Powered Scaffold Tower**

With a large work platform (1520 x 750 mm), the Power Tower gives the user more room to work and more room for tools and equipment, in fact more than 50% larger than its nearest competitor.

The Power Tower requires less operations to cover the same area for many applications. And at only 780 mm wide will still pass comfortably through a standard single doorway.

The heavy duty Power Tower really is the cost effective, safe and efficient alternative to large podiums or small scaffold towers.

Typical applications and users: For users who want larger platform size for themselves, tools and equipment. Typically dry-lining, pipe and duct work, air-conditioning, general M & E contractors, shopfitters, retail refit etc.

#### **Key Features**

- 3.1 m platform height, 5.1 m working height
- 250 kg safe working load (1 person)
- Compact only 0.78 m wide, passes easily through standard doorways
- Large 1.52 x 0.75 m platform size
- Only 0.78 x 1.6 m working footprint
- Easy access gate

## **PUSH AROUND**

### Indoor use

Working Height: 5.1 m

Applications: Dry-lining. Pipe & Ductwork. Air conditioning. M&E. Shopfitting. Retail.

### Model **POWERTOWER®** LOW-LEVEL ACCESS

Specifications

#### **OPERATING DIMENSIONS**

Maximum working height:	
Maximum platform height:	
Platform dimensions:	
Working foot print:
